## Carers Victoria off to Toronto Conference

Thanks to a generous donation from Australia Post, delegates from Carers Victoria will present papers at the Festival of International Conferences on Caregiving, Disability, Ageing and Technology, to be held in Toronto, Canada in June.

One of the papers being presented will feature the innovative Employed Carers Project, which uses a partnership

approach to the development and delivery of empowering workplace change programs for managers and employees through information, education, workshops and one-on-one interviews.

“Carers Victoria is looking forward to showcasing this exciting project to an international audience, and we are grateful for the wonderful support shown by Australia Post,” said Maria Bohan, CEO of Carers Victoria.
